

S2M2 2019

SCIENCE, SERVICE, MENTORING & MEDICINE PROGRAM

See more!

VISION

To cultivate the next generation of top quality, culturally competent physicians, scientists, and healthcare professionals.

MISSION

To encourage, nurture, and enhance a commitment to service and medicine in a welcoming and intellectually stimulating environment for a diverse population of high school students.

To develop leadership and teaching skills, while providing long term mentoring and learning opportunities to current and prospective USU students and those interested in pursuing military science or medicine.
